Freeze N Shape Belt

QUICK Freezing technology

Sculpt your body by freezing your fat cells

Cold lipolysis technology
-6°C
To eliminate your fat cells

For High For Waist

Freeze N Shape Belt

A non-invasive alternative to conventional liposuction, Cryolipolysis uses cold to break down fat cells without damage to other tissues. Fat cells are cooled into the negative temperatures, causing them to break up and be disposed of through the body's own lymphatic system, resulting in a more toned and sleek appearance.

Sculpt your body by freezing your fat cells

Loss an average of 20% of your fat cells in the treated area with just 1 application a month. There is no discomfort associated with this process thanks to the protective pads included in the box. Freeze N Shape belt uses scientifically proven cold lipolysis technology. This is a new technology where fat cells are frozen without damaging the surrounding tissue. Then the body naturally eliminates the dead cells through a process called Apoptosis (Natural Cell Death).

Results may vary

Made in China

Specifications :

- The belt uses scientifically proven Cold Lipolysis Technology.
- where fat cells are frozen without damaging the surrounding tissue.
- Then the body naturally eliminates the dead cells through a process called apoptosis (Natural Cell Death).

Include:-

- Freeze & Shape device
- Velcro Belt.
- AC Adapter
- Power Cord
- Diet Plan.
- Fat Measuring Device.
